

REU seminars 2005		
Date	Speaker	Title
10-Jun	Dan Stump	Partons - what's in a proton?
17-Jun	Bill Lynch	Nuclear Physics and Neutron Stars
24-Jun	Bill Pratt	Giant Magnetoresistance: the physics of the read head in your computer hard drive and a future (?) permanent magnetic random-access memory.
1-Jul	Stuart Tessmer	The nanoscale world of scanning probe microscopy
8-Jul	Joey Huston	The Large Hadron Collider (LHC)
15-Jul	Georg Bollen	What are trapped ions good for?"
22-Jul	Ed Brown	Lighting the Standard Candle: Type Ia Supernovae
29-Jul	Simon Billinge	Complex materials
5-Aug	Thomas Glasmacher	Physics with Rare Isotopes
